Max Marks : 10
Due Date : Available on SLATE
Type : Open book, Individual Work
Weight : 5% of Total

Objectives : Demonstrate the understanding of the proper usage of HTML5 and CSS.

Requirements

In this quiz you are required to create an HTML page on a topic of your choice.

1. [5 Points] Make sure you have used the following layouts and styled them (CSS) properly so that the page looks SOMEWHAT like the following. Make sure your basic structure is correct.
2. [2 Points] HTML tags you are expected to use are <a>, order/unordered list, paragraphs, headings, img
3. [2 Points] CSS: besides the layout, apply font, color, pseudo class for <a>
4. [0.5 Point] Use external stylesheet
5. [0.5 Point] Put your resources (images, stylesheet) in separate directories
6. Submit everything as a single zip file.

Notes:
1. The **quality of your code** is extremely important. Up to 50% of the mark for a program can be deducted for incorrect structure.
